PROFILE

B.Tech  student (YOP 2026) with experience in full-stack development using React JS, Next.js, Firebase, and REST APIs. Skilled in building scalable, user-centric applications like content platforms and academic management systems. Strong in problem-solving, communication, and teamwork, with expertise in Python, AI/ML, and Java. Passionate about contributing to impactful projects.

SKILLS

Front End Development – React JS, React Native, JavaScript, Wordpress, Bootstrap, SCSS, HTML, CSS.

Back End Development – Flask, Postman, API handling, REST API, MySQL, MongoDB, Firebase.

Programming Languages – Java, C++, C, Python, JavaScript

Tools & Environments – Git & GitHub, Unix/Linux, Windows, Mac OS.

Soft Skills – Communication, Team work, Adaptability, Time Management

PROJECTS

Quiz Analysis System, Python, React.js, TestLine APIs 

A data-driven Quiz Analysis System that processes student quiz performance to provide personalized insights and recommendations using Python for analysis and React for visualization.

Movie Recommendation System,

Python, TF-IDF, Sci-kit Learn, Cosine Similarity, RapidFuzz, HTML/CSS. 

- Developed a recommendation system using Python, TF-IDF, and cosine similarity, adding real-time matching with RapidFuzz.
- Helps users quickly find movies matching their preferences

Van Life, React JS, Scrimba Vans API 

- Built a van rental app using React JS for front-end, Firebase for authentication, and Firestore for database integration.
- Makes renting vans easy with secure booking and user-friendly access.

ScholarSync, React Native, Firebase, Express.js, MongoDB 

- A student-centric app for seamless academic management, campus updates, and collaborative communication.

EDUCATION

2022 – 2026	B.Tech, CSE - AIML, <i>Vignan's Lara Institute of Technology</i>	Guntur, India
2020 – 2022	Intermediate, A.N.M & B.R Junior College	Rayachoti, India
2020	Schooling, Sree Bharateeya Vidhya Bhavan EM High School, Rayachoti.	Rayachoti, India

ADDITIONAL COURSES

07/2024 – 09/2024	Data Structures and Algorithms, Apna College Completed a challenging course focusing on essential data structures and algorithms using Java to improve coding proficiency and problem-solving skills.
08/2023 – 09/2023	Frontend Development, Scrimba Learnt React js, JavaScript, API handling and Responsive design.
12/2024 – 12/2024	AWS APAC Solutions Architecture virtual experience program, Forage Designed a scalable hosting architecture with Elastic Beanstalk to improve response times, support client growth, and simplify cost structure explanations.
